CI Activities:

- The CICs have been meeting with residents in the Dimock and Susquehanna areas to listen to concerns related to natural gas drilling. The CICs to date have facilitated several listening session both at the regional office and in the field and they continue to serve as the region’s point of contact for these residents to help coordinate responses to the questions and concerns.

Key Message(s):

- Region 3 continues to evaluate data supplied by PADEP, residents, and Cabot to determine whether EPA needs to become further involved to ensure that public health and safety is protected.
